

THE
YEAR 9 1485-1660 ARTEFACT
EXHIBITION
MONDAY AUGUST 16

Congratulations, you have been asked to present at the **Annual Year 9 1485-1660AD Artefact Exhibition.**

You, and your research partner, are to choose an artefact from the BBC Website's '100 Objects in History' and conduct some research on it, as well as the people and society from which your artefact originated.

On **Monday August 16, during period 8**, you are to present your artefact and research findings in the MU19 Exhibition Centre. You will be presenting to fellow classmates and special guests from your school community, so look sharp.

The project manager of the museum, Mrs Sally Stevens, has asked that you present your findings on an A2 poster for easy viewing by the public, as well as providing a replica or sketch of your artefact.

In order to preserve the condition of your artefact, you may like to consider, boxing or framing your item. Please see the project manager, if you need any assistance in this matter.

You will have a further two weeks to complete this task. In order to ensure that the exhibition goes ahead as scheduled, you are required to inform the project manager of your progress over the coming weeks.

By **Wednesday August 11**, you must have completed your research and begun working on your poster presentation.

You are required to make the most of your class time for this project, it is also expected that you work on this outside of school hours. Please ensure that you and your research partner are able to remain in contact outside of school hours.

Congratulations and good luck.
