

Coding the Text - Reading Strategy

Task:

Read the sheet provided using the reading strategy called; 'Coding the Text'.

What you will need:

2 post it notes, cut into 4 pieces, each with a sticky on the end.

Coding Key

Very Important Points or key concepts.

Information you find confusing or does not make sense?

Wow or AHA, things you find interesting, hard to believe, or was unexpected.

Step 1- As you read

Use your post-it-note markers to mark sections of the text that you find to be:

Key concepts or information (V.I.P.)

Information you are confused about or that does not make sense (?)

Information you find interesting, hard to believe, or was unexpected (!).

You may find that you need to move your markers as you read new information. Your goal is to use all 8 markers.

Steps 2 and 3- When you finish reading and summing up.

Go back to each marker and place the appropriate symbol on each marker:

THEN do the following;

- For every **V.I.P.** summarise the information in your own words.
- For every **(?)** write a question to express what confuses you or does not make sense.
- For every **(!)** summarise what/why you found that point interesting.

Record your information on the VIP Chart , make a copy of the chart on the next slide.

AHA! or WOW! factor

Questions or confusing ideas
